

Control

# NC1000

## Stability and comfort for commercial vans

SUMMER

EU-APPROVED

VAN

- Designed to last and provide value for money
- Best traction and impact resistance – even with poor road conditions
- The NC1000 is a reliable companion for both short and long-distance service and in all weather conditions
- Strong shoulders and massive center tread blocks ensure excellent ground contact and optimal handling with heavy loads
- Provides effective water dispersion and excellent aquaplaning resistance
- Steel belt construction and polyester casing provide outstanding durability and even wear.
