

Control

NC1000

Stability and comfort for commercial vans

- Designed to last and provide value for money.
- Best traction and impact resistance – even with poor road conditions.
- The NC1000 is a reliable companion for both short and long-distance service and in all weather conditions.
- Strong shoulders and massive center tread blocks ensure excellent ground contact and optimal handling with heavy loads.
- Provides effective water dispersion and excellent aquaplaning resistance.
- Steel belt construction and polyester casing provide outstanding durability and even wear.
